

COMPOSTING 101

Tuesday, March 12, 2019 6:00 pm

Geauga West Library
13455 Chillicothe Road
Chesterland, OH 44026

Composting is nature's way of recycling your trash to treasure! Much of what we throw away as trash at home can be composted into rich, healthy soil instead of piled into a landfill. Join us for this fun, informative, and free program to learn composting basics & benefits, different composting methods, and ways to avoid common composting problems. Pre-purchased bins can be picked up at the workshop.

To register call Geauga West Library at 440-729-4250 or register online at divi.geaugalibrary.net
