

Slow the Flow with Rain Gardens and Rain Barrels

Wednesday, July 10 • 6 p.m.

Rain gardens and rain barrels are two easy practices that bring backyard conservation benefits while reducing rooftop runoff. Join Geauga Soil and Water Conservation District for an overview of both including how to get started, things to consider, design and installation tips, and helpful resources. This fun introductory program is guaranteed to wet your water conservation appetite! Optional trip to the rain garden for those who'd like to stay at the end.
