

Geauga Soil and Water Conservation District

Water Management and Sediment Control Plan Exemption Form

I, _____ the (owner/developer/builder/general contractor) of a piece of property
(name) (circle one)
located at _____ in _____ Township, and also know
(address) (township)
as parcel # _____, declare said property is not located within a platted subdivision
(parcel ID #)
and it will not be disturbing one (1) acre or more of soil as part of proposed construction activities
including all grading work, and construction of septic system, driveway, house, and accessory buildings.

The proposed work will consist of construction of the following: _____
(house, driveway, septic, addition, accessory building, etc.)
and I understand that I am responsible for complying with the erosion and sediment control mandates
of the *Geauga County Water Management and Sediment Control Regulations*.

Owner/Developer/ _____ Date _____
Builder/General Contractor (print name)
(circle one)

(signature)

Based on the information provided above by the applicant, the Geauga Soil and Water Conservation District confirms that the above referenced project is EXEMPT from the submittal and approval requirements of the *Geauga County Water Management and Sediment Control Regulations* and therefore a Water Management and Sediment Control Plan is NOT required to be submitted to or approved by the Geauga Soil and Water Conservation District.

Geauga Soil and Water Conservation District _____
PO Box 410 (print name and title)
Burton, OH 44021
(440) 834-1122 _____

E-mail: gswcd@geaugaswcd.com
Date _____

This Geauga SWCD exemption does not relieve the owner from complying with other requirements of federal, state, and local agencies. Certain townships may require a Water Management and Sediment Control Plan to be submitted and approved for this project as part of the local township zoning permit process.
